

I absolutely love my KLOVE station at 88.9FM With so much negativity in this world, its nice that my children can listen to KLOVE and I don't have to worry about any ugly language or songs. If there is any concern for the information they are about to announce, the DJ gives us warning to turn the volume down for little listening ears. KLOVE is an uplifting & inspiring radio station that is so positive. I believe the public needs to listen to KLOVE for inspiration and guidance. Most radio stations don't care about what is said on their stations. Example would be all the vulgar music that is being played. Please don't change the service. Why fix something that isn't broke. S. Wagner
